Javier Sanchez

I think Woodcote is a wonderful school, even that I come from Spain I always tell my parents that I want to stay another year. I think being a boarder is great fun, because you get the opportunity to be most of the time with your friends, in Spain we don't have boarding schools.

The food is absolutely amazing, I think is like thousands of times better than in my Spanish school. In Woodcote every boy has a good or very good relation with the teachers, we don't have that in Spain at all.

I think the matrons are very, very good help and they're always there to help you. I've learnt new sports such as cricket and rugby and I really like them! Lessons are really enjoyable with the teachers, and the most important thing that I've come here for is that I have improved my English a lot.
WOODCOTE IS AMAZING !!!
